- (b) other operations or mining activities both in New Zealand and internationally that the proposed new permit holder has been involved with to the extent that these activities impact on the proposed new permit holder's ability to comply with the conditions of the permit; and

- the royalties that will be paid to the Crown by the permit holder (e.g. is production being sold for less than an arms length price or includes costs that are non-allowable for purposes of calculating royalties).

The statement of reasons should address these matters. For agreements that contemplate the transfer of a permit or an interest in a permit at some time in the future (such as a farm-in agreement), permit holders should also provide the information and address those matters referred to under footnote 10.
