- Global perspective - New Zealand's place in the petroleum world;
- Sector Participation/Investment - What should New Zealand do to maximise participation/investment;
- New Frontiers - Unlocking the potential of Reinga, Northland, Raukumara;

- New Zealand Petroleum Basins – Advances in our geological understanding;
- Exploration and development opportunities;
- Technology - Enabling greater investigation into more challenging environments;
- Enhanced Recovery Technique
- Challenges of unlocking New Zealand’s oil and gas resources;
- Global recovery of Oil and Gas demand - Does the New Zealand industry have the supply capacity for forecast demand?
- Latest field developments;
- Coal Seam Gas, deep/tight gas;
- Gas to Liquids - Lignite and methane hydrates;
- The Governments Energy Strategy;
- Doing Business in New Zealand;
- The regulatory regime and fiscal environment;
- Finance and funding concerns;
- Infrastructure, skilled work force and exploration equipment and the constraints around them.
